

REMARKS

The application now contains claims 3, 5-7, 30-38, 41 and 42. Claims 41 and 42 have been amended.

In the advisory action, the Examiner indicated that 35 USC 112 rejections raise in the final office action of July 17, 2007 were not addressed in the amendment after final filed on October 15, 2007. Accordingly, the amendment after final was not entered by the Examiner. Applicants have filed a Request for Continuing Examination on October 31, 2007 after which the amendment of October 15, 2007 was entered.

Applicant files herewith an additional amendment to claims 41 and 42 to overcome the 35 USC 112 rejections raised by the Examiner in his final action. Support for the amendment to claims 41 and 42 can be found at least on page 9, lines 30-33 of the application as filed.

In his Advisory Action the Examiner indicated only one rejection to the claims, namely the rejections under 35 USC 112. In view of the above remarks and amendments, applicant submits that the claims are patentable and that the application is ready for allowance. Notice to that effect is respectfully solicited.

Respectfully submitted,

Paul Fenster
